

Pembrokeshire's new driving test facility opened

PEMBROKESHIRE ROAD TRAINING

PEMBROKESHIRE Road Training is pleased to announce that on July 1st 2009 it became the first company in Wales to be granted the DSA customer trial site LGV/PCV testing status. The DSA LGV/PCV driving test centre closed in Haverfordwest on February 15th this year. Pembrokeshire Road Training continued to support local customers by transferring their training and testing to the nearest DSA centre at Neath. Having been granted customer trial site status by the DSA it is now able to train and test LGV/PCV and B+E trailer towing drivers on the new purpose-built testing facility built on the County Showground in Haverfordwest.

Pembrokeshire Road Training wishes to extend its gratitude to all its staff past and present, the Pembrokeshire Agricultural Society, Pembrokeshire Lottery, the Thomas family of the Showground café for their support in this venture, and Chris Henton, of CDC Ground Works for overseeing the construction of the new manoeuvring area at the driving test facility.

The training and test facility will provide private individuals and companies from Pembrokeshire and surrounding counties, the opportunity to receive training within Pembrokeshire, without having to travel long distances to receive the training they require.

In addition to driver training, Pembrokeshire Road Training will be offering both operator and driver CPC courses in its OCR registered classroom, together with a full range of transport related training courses and a full range of first aid courses. It will also continue to provide plant training services. Pembrokeshire Road Training's aim is not only to help customers pass their test, but also to best prepare them for their future ahead in their chosen field with one of their training packages.

The instructors have national and international driving experience of over 150 years, including specialised areas to provide our customers with the best possible training.

Contact Nigel or David for more information about the new test facility or to discuss your training needs.
